## **DETAILED ACTION**

This Office action is in response to application filed 7/29/2003.

Currently, claims 42-67 are pending.

### ***Allowable Subject Matter***

1. Claims 42-67 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art, either singly or in combination fails to anticipate or render obvious, the limitations of:

... "thermally treating the substrate assembly, wherein the passivation layer substantially prevents formation of a metal oxide at the oxide region during thermal treatment" , as required by claim 42.

The prior art, either singly or in combination fails to anticipate or render obvious, the limitations of:

... "thermally treating the substrate assembly, wherein the passivation layer substantially preventing formation of a metal oxide between the layer of metal material and the oxide region during thermal treatment" as required by claim 51.

Lastly the prior art, either singly or in combination fails to anticipate or render obvious, the limitations of:

... "performing a thermal treatment on the substrate assembly, wherein the passivation layer substantially prevents formation of titanium oxide between the layer of titanium and the oxide region during thermal treatment" , as required by claim 59.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2812

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
